Registration is now open for the

## **Lunch n' Learn: Discover your Technology Edge in Today's Orthopaedic Landscape**

Vancouver, BC

**ZIMMER BIOMET**  
Institute

---

## Course Overview

Zimmer Biomet is redefining the standard of care by integrating ZBEdge® technologies with the clinical heritage of our comprehensive implant systems.

ZBEdge® Analytics is a data platform that delivers intra-operative, mobility and outcome insights directly on a smartphone application, enabling surgeons to objectively assess their performance and understand the potential impact of clinical decisions on patient recovery. The platform connects intra-operative data collected from ROSA® Knee and/or ROSA® Hip applications with mobility and outcome metrics from mymobility®, our Care Management Platform.

Join our expert faculty\* as they share their experiences using these technologies in their practices. Learn how these tools are helping them, and their care teams work more efficiently, ultimately transforming the way patient care is delivered.

CONNECT UNDERSTAND IMPROVE

\*Paid Zimmer Biomet Consultants

This session is not accredited. Attendees of the session are not eligible to claim CME or MOC credits for participation.
