September 22 | 7:00 – 8:00 pm ET
Mini-Open Latarjet with ENDOBUTTONS

Course Description

- Three live, interactive events led by world-renowned shoulder repair surgeon, Dr. Ian Lo
- Each event of the series will include two distinguished faculty guests for live, technical discussions to debate the most challenging aspects of the case.
- Discussion topics will include current trends, technologies and anatomic-based surgical techniques of shoulder repair for Advanced Healing Construct and Glenoid Bone Loss.
- At the time of registration, full-length recorded surgeries will be made available to view on demand. The live events will include a highlight reel of the most challenging components of the surgery.

Learning Objectives

- Attendees will develop knowledge, skills and abilities related to the treatment of various shoulder preservation pathologies.
- Live broadcast with discussion in English and translation in French

Participant Profile

- This virtual series is available to surgeons, fellows, residents and healthcare professionals globally
