

Hypophosphatasia: A "common," underdiagnosed, and treatable rare disease

Thursday, June 12, 2025 | 1:00 – 2:00 PM PST

Vancouver Convention Centre East

JOIN US FOR AN ENGAGING PRESENTATION

This session will inform on the disease prevalence, pathophysiology, and management of hypophosphatasia. A real-world case will be presented exemplifying underdiagnosis in adults. Typical clinical presentations to orthopaedic clinics will be described.

LEARNING OBJECTIVES

In this session, participants will be able to:

- Learn the basic pathophysiology and epidemiology of HPP
- Learn to recognize possible cases in an orthopaedics clinic
- Learn referral pathways
- Learn how the disease is treated

Anna Lehman, MD, FRCPC, FCCMG
